

Top Desk II features a combination of simple design and sophisticated color. Top and side panels use brackets to induce airflow

## Design for office

## DETAIL

**01\_ Wiring Cap**

Top wiring cap considering safety and convenience provides enough space for vertical wiring with ABS injection cover.

**02\_ Bracket**

By applying a bracket with a stylish image, it provides space between the top and side plates of the product to help free wiring.

**03\_ Handle**

Metallic materials and simple handles are safe to use and the unique design fits well into modern offices.

**04\_ Leveling Feet**

Plastic injection leveling feet are attached to the bottom for easy leveling.
