INVESTMENT AND BUSINESS START-UP
Co-working Space Series 'Venture' seeks to be a
foundation for success. We will produce a working
space with a simple and compact design for customer.

VENTURE series

Co-working Space means a place where various people from different positions and occupations come together to share the space and share knowledge and know-how beyond the space through natural contact and communication. Co-working is a type of work that is appropriate for the age of knowledge and information. It is characterized by the fact that anyone can collaborate and share knowledge and experience.
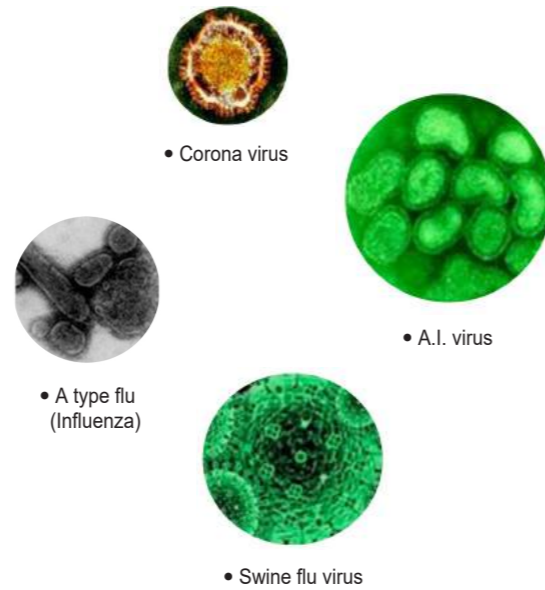

VENTURE series

N Wood 'Venture' is creating a unit bar that can
realize personal storage, common space, and
various types of work.

VENTURE series

Plasma Sterilizer

Sterilizes more than 99% of fungi and various viruses that can be fatal to humans

• Corona virus

• A.I. virus

• A type flu
(Influenza)

• Swine flu virus

Function

• Power : On/Off
• TEMP-L : MID TEMP AIR FLOW (40℃~45℃)
• TEMP-H : HIGH TEMP AIR FLOW (50℃~55℃)
• TIMER : OPERATING TIME (3/7/12/24 HOURS)
• PLASMA : S-Plasma Sterilization(0.4W / 1.5㎡)
• AUTO : TEMP-H + TIME(24h) + PLASMA(Sterilization)

Color

Plasma / Phytoncide

Equipped with storage furniture, such as a closet
Eco-friendly product for sterilization and deodorization as well as simple dry, Atopic dermatitis and allergy prevention Built-in Super Plasma Ion Generator
Custom built-in home appliance deodorization and mold suppression for all storage furniture

MOVING DESK series

Easily operated controller allows height to be adjusted to fit individual body type and work type. The moving desk, which adjusts height (680 ~ 1200mm) according to customers, satisfies both sitting and standing at the same time, and improves work efficiency and user's health index.

MOVING DESK series

MOVING DESK HEALTH CARE

Working on different types of people at the same desk is unhealthy for the user. Moving desk adjusts to user's body shape to create a healthy office environment and enhances work efficiency and satisfaction. A healthy office environment improves concentration and improves work efficiency, so you can work healthier and fit your body.

The Challenge series features combination of color and soft finish and ergonomic design that prioritize user convenience and a variety of units for a seamless layout. Reduce unnecessary area of the desk to implement an efficient use of space and a comfortable working space for the current office.

CHALLENGE series

The Challenge series is a basic design that allows you to create a workstation that's right for you, in a flexible combination with a variety of storage.
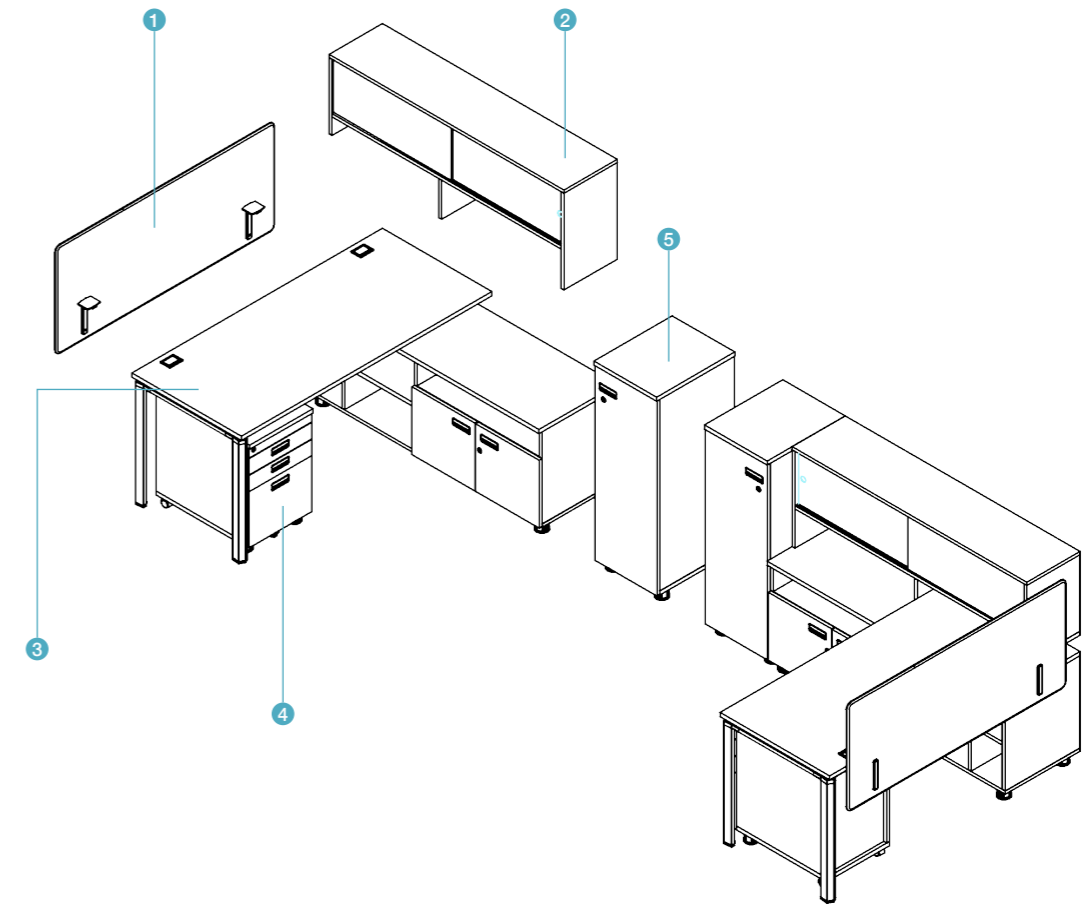

Basic structures

Image	Item	Model No.	Description
1	Screen	DS0166R	The screen distinguishes the personal space with natural communication at the proper height and helps to organize the objects of the individual neatly. You can also attach a simple note using a magnet to the front memo board with the accessory on top.
2	Top Storage	BS015H	Optional top storage replaces the panel to provide eye-catching, personal space and expand your storage space.
3	Desk	CHD0165SD	Side cabinets combined with desks provide personal accessibility and convenient storage.
4	Mobile Pedestal	DP131	Security management of personal objects is possible, and sufficient storage space is provided for efficient storage of various materials and supplies.
5	Locker	LK045	Tower units, maximize personal storage, allow you to store and manage a variety of items.

The modern base has a simple yet luxurious desk that is not restricted by space, making it easy to relocate and move around.

02_ Wiring Cap
Top cable cap considering safety and convenience provides enough space for vertical wiring with ABS injection cover.

03_ Inserted Handle
The metallic material and simple inserted handle are safe to use and the unique design fits well into modern offices.

04_ Leveling Feet
The plastic injection leveler is attached to the bottom, making it easy to adjust the level even without uneven floor.

05_ Memo board
Magnets can be attached so you can attach notes or photos.

Design for office

01

02

03

04

DETAIL

01_ Wiring Cap
Top wiring cap considering safety and convenience provides enough space for vertical wiring with ABS injection cover.

02_ Bracket
By applying a bracket with a stylish image, it provides space between the top and side plates of the product to help free wiring.

03_ Handle
Metallic materials and simple handles are safe to use and the unique design fits well into modern offices.

04_ Leveling Feet
Plastic injection leveling feet are attached to the bottom for easy leveling.

PARTITION

Partition system that can be customized to any office space according to the nature and structure of work. It is a new space-creation system that can be installed as you want because it is rugged and has various colors and sizes.

PARTITION

30T SCAPE series

Simple and modern design, excellent space utilization Structure that can be modified in various layouts

Lightweight panel saves space with reduced volume and is a sleek, lightweight light panel that is easy to install and transfer

30T SCAPE series

ONE POST system
By using a single post, L-, T-, and X-type panels can be connected to reduce assembly time, thereby reducing costs. Also, when connecting panels of different heights, we have the convenience of connecting panels of all heights with one of the highest size posts.

OFFICE CHAIR

Futuristic office chair designed with new technology and new construction method. It is composed of various products that can be used anytime, anywhere, such as management, general office, meeting, lobby.

OFFICE
CHAIR

EXECUTIVE CHAIR series

Executive Chair that provides sophisticated elegance in a modern, slim-style - Kyle The combination of understated volume and slim edged armrests creates a luxurious yet sophisticated style. Double layered structure with inner mesh and leather on the back, and multi-limited tilting function for natural movement of the body satisfy slim style and comfortable seating at the same time.

Design for office

By diversifying the product specifications, finishing colors and materials, it offers a new direction for the leather chair through a composition that is suitable for offices and homes.
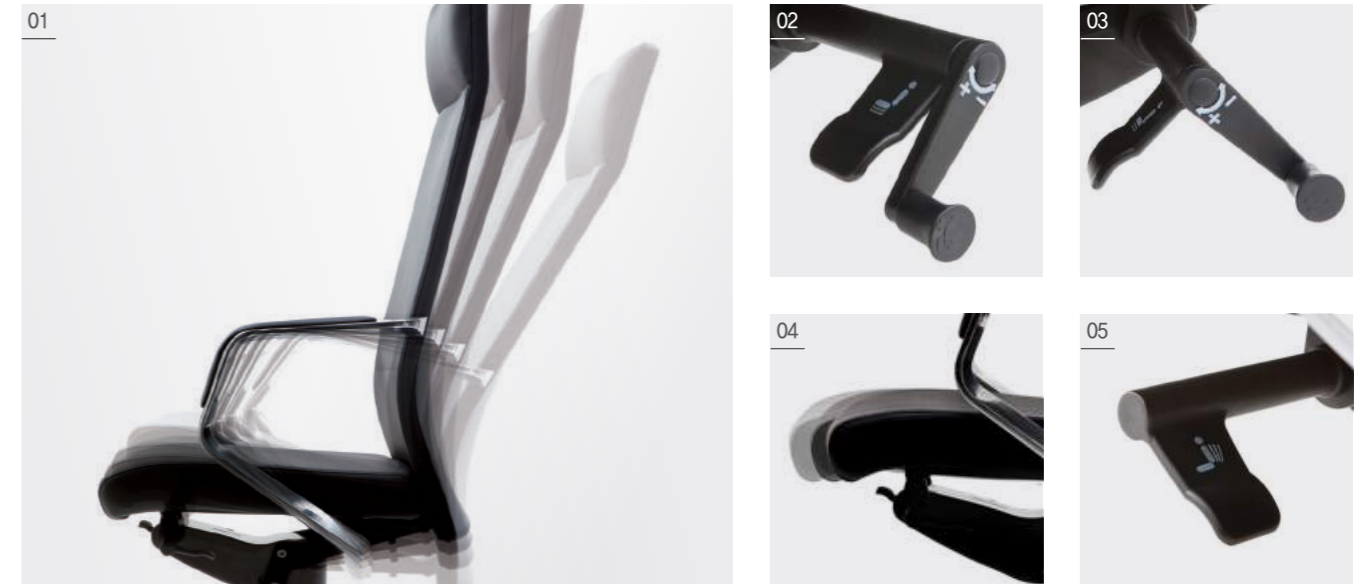

DETAIL

01_ Synchronized Tilting
At the same time, the back plate is tilted at each angle and the body is tilted backwards to extend the whole body, restoring the S position of the spine and stretching the body naturally.

02_ Seat height adjustment
The seat height can be adjusted using the handle on the bottom right of the chair. When seated, adjust the legs to be naturally perpendicular to induce a natural posture.

03_ Tilting Strength Adjustment
Different people can sit and give different strengths, so the tilting strength is adjusted to allow comfortable tilting even when the power is appropriate to the seated person.

04_ Seat Depth Control
The seat depth can be adjusted to fit the user's body, keeping the back and body of the chair tight and relieving pressure on the hips and thighs.

05_ Tilting step lock
It is a function to fix at the desired angle by using the handle on the bottom left of the chair, and it can be used to maintain the desired angle without applying force on the back by holding the back and fixing it at the desired angle.

OFFICE CHAIR series

The simple design along the understated lines fills the sense of space. Experience the ultimate in comfort with our convenient features that support your body and posture.
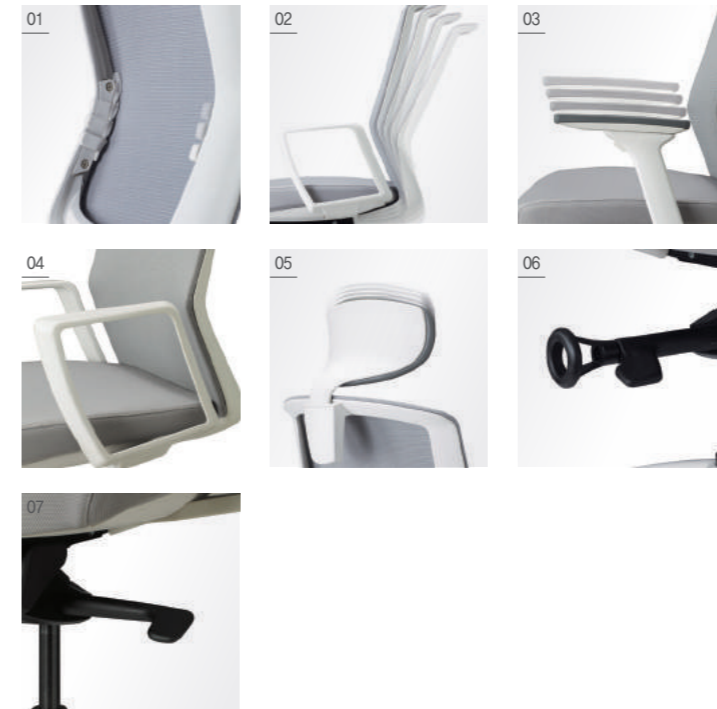

DETAIL

01_ Lumbar support height adjustment (elastic type)
You can easily adjust the elasticity of the mesh by operating the lever behind the back up and down.

02_ Synchronized Tilting
Synchronized tilting moves the back and the seat at different angles, keeping you comfortable in a variety of positions.

03_ Adjustable armrest
The adjustable armrests allow you to adjust the height, front, rear, left and right widths.

04_ Fixed armrest
The position and angle are set based on ergonomic figures for comfortable use.

05_ Headrest Adjustment
You can adjust the height to fit your body and support it comfortably with its own tension.

06_ Tilt Strength Adjustment
Back strength can be adjusted using the round dial located under the seat.

07_ Multi Locking
When flipping the back, you can adjust the angle in 3 steps using the left handle on the bottom of the seat.

OFFICE CHAIR series

The lumbar support and tilting function comfortably support various body types. From headrests to seat depth, you can set it up for your body shape for optimum comfort.

DETAIL

01_ Lumbar support height adjustment (elastic type)
You can easily adjust the elasticity of the mesh by operating the lever behind the back up and down.

02_ Synchronized Tilting
Synchronized tilting moves the back and the seat at different angles, keeping you comfortable in a variety of positions.

03_ Adjustable armrest
The adjustable armrests allow you to adjust the height, front, rear, left and right widths.

04_ Fixed armrest
The position and angle are set based on ergonomic figures for comfortable use.

05_ Headrest Adjustment
You can adjust the height to fit your body and support it comfortably with its own tension.

06_ Seat plate
Unlike the traditional cloth finishing method, the fabric is made to replace the cloth, making it possible to change the cloth.

07_ Tilt Strength Adjustment
Back strength can be adjusted using the round dial located under the seat.

08_ Multi Locking
When flipping the back, you can adjust the angle in 3 steps using the left handle on the bottom of the seat.

New changes by simplicity

The balance of useful features and beautiful design creates a new change in your life. You can experience a relaxing environment with selected materials and convenient features to comfort.
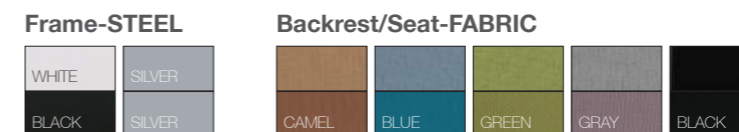

DETAIL

01_ Synchronized Tilting
Synchronized tilting moves the back and the seat at different angles, keeping you comfortable in a variety of positions.

02_ Mesh material
The mesh material applied to the back has excellent elasticity and maintains its optimum state without sagging.

03_ Fixed armrest
The plastic fixed armrests are positioned and angled based on ergonomic figures for anyone to use comfortably.

04_ Tilt Strength Adjustment
Back strength can be adjusted using the round dial located under the seat.

05_ Multi Locking
When flipping the back, you can adjust the angle in 3 steps using the left handle on the bottom of the seat.

06_ Base & Caster
The base supports the chair reliably and the caster prevents noise and floor scratches when moving.
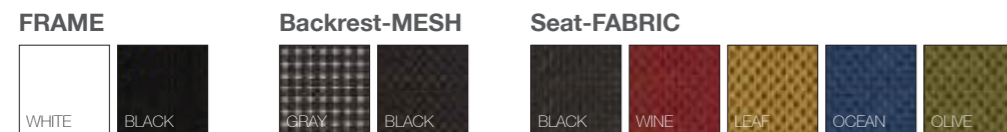

DETAIL

01_ Torsion bar tilting
Tilting function that moves the back together when you lean over the torsion bar provides a softer tilting feeling.

02_ Mesh material
The mesh material applied to the back has excellent elasticity and maintains its optimum state without sagging.

03_ Horizontal Lamination
The folding chair can be easily loaded for easy storage and management.

04_ Back twist
When leaning or moving, the whole back is twisted left and right, giving elasticity to the user's various movements.

05_ Urethane Caster
Apply urethane caster that minimizes floor scratches for smooth use when rotating and moving.

MULTI-PURPOSE CHAIR series

Simple, compact, efficient chair in square shape-cube
It is a functional chair that can be used for various purposes in a variety of spaces, allowing efficient use of space through horizontal stacking, and a tilting function that adds seating comfort to the comfortable curve of the back.
In addition, the simple style using lines and cotton and the fabric of various colors create a light space.

CHAIR

01

02   03

DETAIL

01_ Tilting function
It is a tilting function that moves the back together when you lean your body using a special material (torsion bar). The elasticity of the material is applied along with the armrest to create a comfortable working environment by providing a soft tilting feeling.

02_ Folding function
As a function that enables horizontal loading, it grabs the seat plate and raises it at right angles to fold it to the back plate to minimize the volume of the chair for efficient loading.

03_ Horizontally Stackable
After folding the seat vertically (folding function), it can be easily pushed and loaded without feeling the weight of the load to maximize space utilization and efficient storage and management.

EXECUTIVE FURNITURE

Great ideas to change the world begin in great spaces. N wood's executive furniture represents the high-class position of the global leader with solid design and high-quality materials, and actively supports successful business through work efficiency with various functionalities and storage systems.
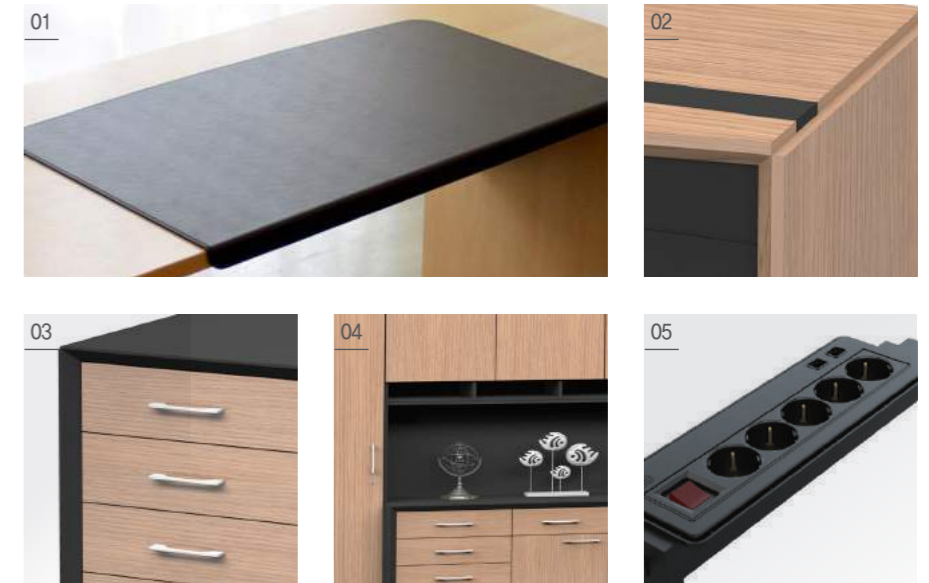

GENERAL series

The General Series is a combination of natural veneer and color boards that create a refined and luxurious look.

GENERAL series

Design for office

DETAIL

01_ Luxury leather pad
A premium leather pad finish on the main work surface of the desk provides excellent touch when used.

02_ Top plate, Side plate 45 degree cutting structure 45-degree cutting structure enhances luxury and profoundness

03_ Damping Rail
Damping function prevents damage to the product by preventing noise and smoothly opening and closing structure.

04_ Motion detection sensor light
It is convenient because the sensor detects the movement and lights up

05_ Multi-outlet
Multi-tap and LAN porter are built in on the top of the desk to keep the wiring neat.

DETAIL

01_ SOFT CLOSING DOOR
The door closes slowly and smoothly and quietly.

02_ DAMPING rail
It mitigates the impact when the drawer closes, reducing noise and preventing damage to the product.

03_ ONE KEY SYSTEM & ON / OFF recognition
It is convenient to lock and open all the products in the boardroom with just one key, and you can recognize the lock and the opening of the door with the ON and OFF recognition.

04_ FLEXY KEY
The flexible key handle is bent to protect the user and the product.

05_ KEY CORE Removable
Separation of the key cores allows only cores to be replaced, resulting in cost savings and convenience.

COMPUTER DESK series
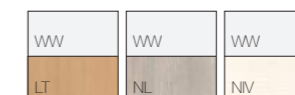

Design for office

It is a series of computer desks that can be easily installed and managed for IT devices to effectively respond to multimedia classes. It provides the best environment to maximize the effectiveness of education with special features that enhance space efficiency as well as user convenience.

DETAIL

01_ Sliding Keyboard / Mouse Tray
It can be removed only when using the keyboard / mouse tray hidden inside to create a neat and tidy computer room.

02_ PC storage box
You can safely store your PC in the box.

COMPUTER DESK series

Educational furniture system for those who dream of the future with a better educational environment with both practicality and robustness. Various layouts are supported to make reasonable use of space, and it promises optimal function and satisfaction in any space.
